Part III REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance: The prior art of record does not teach, disclose, or suggest the claimed limitations of (in combination with all other limitations in the claim), an image reproduction control apparatus, comprising an accessing unit that accesses a recording medium, the recording medium storing a plurality of reproducible images and a reproduction instruction file containing a plurality of file names specifying images to be reproduced, the reproduction instruction file being separate from the plurality of images, and a reproduction control section that controls reproduction of the reproducible images by reading the images specified by the reproduction instruction file read by a reading section, wherein if a particular image specified by the reproduction instruction file to be reproduced is not recorded in the recording medium, reproduction is not performed for the particular image and identification information indicating absence of the particular image is stored in a memory as claimed in claim 80. Similar features are claimed in claims 86, 87, 88, 92, and 93. Therefore, claims 86, 87, 88, 92, and 93 are allowable over the prior art of record for the same reasons.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
